

Camp Reflexion

Year four was all about learning about Nyajung Tulley (the grand father tree) and his thousandth B-day. My favourite part of camp was helping the native tree gardener get some dirt like things into his garden to protect his saplings. My least favourite thing was eating so much delicious food that I got the hiccups. Something I got taught by my mentor and Nyajung Tully was people take so much from country but country doesn't get anything back in return so people should take less and

Camp Reflections

The year four camp was all about learning about Nyajung Tullei and the indigenous games. My favourite part of year four camp was when we went to the creek and it was my favourite part because we got to go in the water. Also I put my head underwater for four seconds! When we arrived at year four camp I was so excited to be at year four camp for two days and three nights. The things I was most grateful for at year four camp was the food we got from year four camp. On year four camp we got to go to the creek, have free time, watch a movie and we got to play indigenous games for fun. My group name was kagaru and kagaru means kookaburra. Also the kookaburra group finished their puzzle piece. Anson 4K

Camp Reflection By: Louie J.

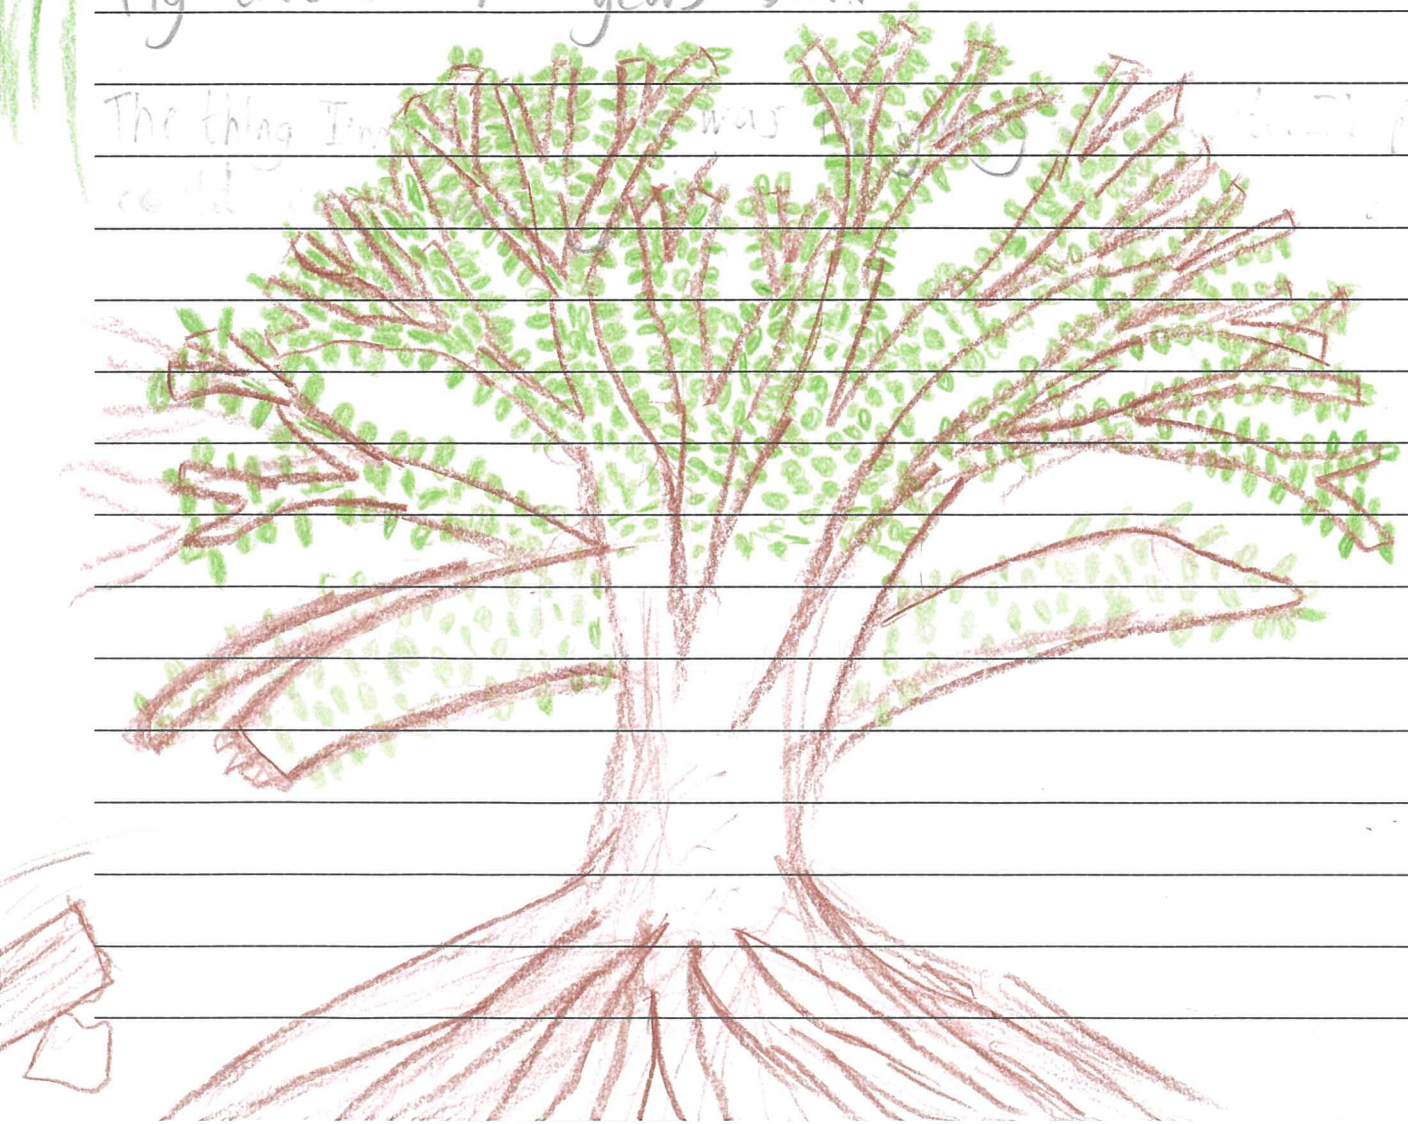

The Year 4 camp was all about Aboriginal people's lives when the years weren't as modern as today. On Year 4 camp, I learned how to throw spears and hunting boomerangs and with that new skill, we tried to knock down wooden animals.

Some of the Yugambeh languages on camp were:

1. Gwang - water or rain
2. Bao Bao - Heoray
3. Kagarey - Kookaburra
4. Guran - Possum
5. Wajin - Platypus.

My favorite part of camp was meeting Nya Jung Tullei the fig tree over 1,000 years old.

The thing I loved was seeing the fig tree and

Camp Reflection

The year 4 camp was all about respecting other people and animals. I learnt to plant the plants and giving the plants more space to grow. Some of the Yugambah language I learnt from camp was bangull, Kagaru which means Kookaburra, wajin which means platypus and guran which means possum. My favourite part of camp was the creek because it was quiet and peaceful it made me relax from the stress bits. When I arrived at camp we tried to make fire to make signal to call Uncle Steve. On year 4 camp we spoke to Uncle Steve. The things I saw on camp was the creek the beautiful plants and the fire. On camp we got to make damper and try new things. The things I'm most grateful is the cabins and Nyajang Tullei. The group I was in was Kagaru.

Camp Reflektion

By Jani

The year 4 Camp was all about connecting to country, but we don't just learn, we also have fun. On year 4 camp, I learned lots of words in Yugambeh language. Some of the Yugambeh language I learned on camp was bao bao meaning Yay. My favourite part of year 4 camp was going to the creek because I heard the sound of nature and it was beautiful! I liked how there's a red light above the ceiling so we can still see things because I have a phobia of the dark. Meeting Nyajung Tullei in real life has surprised me because I've never seen a tree that big in my entire life! Nyajung Tullei is a tree that is 1000 years old.

Year 4 Camp Reflection

The year 4 camp was about respecting the cultures having fun in learning to live the Aboriginal way how to survive in the outback, bush or outdoors. I learnt about respect for people: being polite to others for the land: keep the land clean and culture: accepting other cultures. We learnt how to speak the Aboriginal language and the words we learnt were, Jingeri - hello
Nanabun - see you later

Bao bao - yay

Baungul - good

on the year 4 camp we got to visit Nyajung Tullei which is a one thousand year old tree. it made me feel shocked because the roots were massive and spread out as wide as my classroom. we went to visit the creek and saw fishes.

The things that I saw at was our cabins, Nyajung Tullei, fish, and other places.

By Jihyo

The Year 4 camp was all about throwing spears to catch food, learn about the older tree Nyajung Tullei. On Year 4 camp I learn activities I've did so far, building houses to let us live, making damper, talk to Uncle Steve, and he use ochre to paint on my face. Some of Yagumbeh learn on camp was jinger which means hello. My favourite part of camp was watching movie. When we arrived at Year 4 camp I was interesting about the hill up to camp, later I had so much fun playing a game. On the camp we spoke to Uncle Steve and our teacher on camp. The things I saw on Year 4 camp was dinner room, our cabin, picnic shed, my class and Nyand Nyajung Tullei. While we were creek on Year 4 camp I played on river with friend, talk about fun thing. I had much fun, so I want to come next time.
